Middle to big size (18.5" ~43")

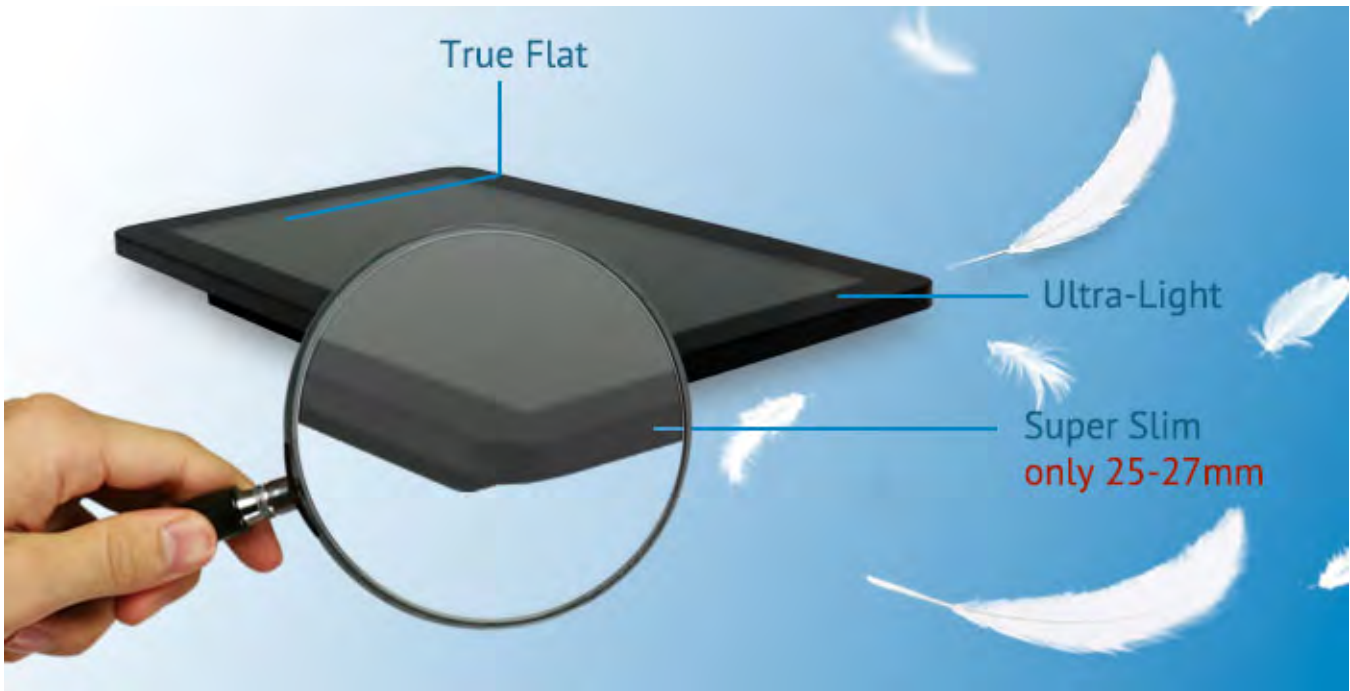

All sizes have excellent thermal design, and its front bezel is design to protect against dirt, dust and water. For bigger size (WCS2700, WCS3200, WCS4300) with Intel OPS platform, make maintaining and upgrading much easier. Even with a wide and big size, whole series design is super slim (47mm ~ 68mm) & ultra-light (6-8kg), with low power consumption less than 60W create more ventilation space, can be installed in any constricting area.

WCS series family can be installed as standalone by VESA mounting on the wall, or embedded into the kiosk. Via the PCAP multi-touch technology, the WCS series not only plays as HMI (Human Machine Interface), but also the intuitive interaction can maximize customer satisfaction. Multiple USB and COM ports in vary form factor such as D-Sub or RJ-45, creates its flexibility for dynamic requirements in the market.

Small size (10.1" ~15.6")

Featuring fanless, slim and ultra-light weight design, WCS1010, WCS1011, and WCS1560 are perfect for business commercial, education and market as a self-service kiosk. Even for any public general usage in building automation, or surveillance fields as control terminals. Indeed, a slim-type with higher brightness (up to 450 nits) ensures better visibility in semi-outdoor self-service kiosk all day.

WCS Fit In Any Business Commercial Application
