

AutoTRON

MA50701 / MAA0703
**Environmental Monitoring
Application Usage**

Do not ignore the importance of visibility. Especially for your Mobile Tablet

No matter what kind of environmental monitoring you are working on, the visibility under bright sunlight conditions is always one of your priority concerns. Monitoring means you must keep a continuous record of a process or quantity. Taking pictures and adding them to your notes can be a handy way to keep track of past jobs.

A Rugged Mobile Tablet with high brightness enables you to clearly view all of the important data. Besides, rugged component enables you to work in extreme environments and resist all the dirty conditions.
